Recall
Removed the damaged shore cord from the vehicle. Unscrewed the
shore plug from the exterior wall. Had to cut the 120v wires as
they were melted into the plastic. Stripped the wires as noted
then torqued the wires to the plug and used a paint marker.
Finished putting the protective cover on and mounted the plug the
the exterior wall. Plugged innthe shore cord and took more
pictures. Verified the power flow. Put away the shore cord.
