Job #FPDINTT - Internal

COMPLAINT: FINAL PDI ON NEW TRAVEL TRAILERS

CAUSE: Final pdi

CORRECTION: Lug nuts torqued to spec air pressure correct in all 3 tires. Running lights and tail lights work properly brakes and Emergency Brakes work properly installed a new battery. Exterior inspection entry door needed adjusted it was had to close. I got it adjusted and it works properly now. Exterior inspection looks good. Roof inspection looks good i did find a couple voids that i filled with dicor non sag. Awning fabric and hardware looks and works properly Awning lights work properly. Interior inspection. Hooked to city water and flushed out all the lines. Stove works properly microwave works properly refrigerator works properly ac works properly furnace works properly water heater works properly. Did my lp drop test on the stove with furnace and water heater running and it is 9 and non adjustable regulator so im going to change it. Put the new regulator on and tested the system. System works properly now. Put stove back together and tested connection for leaks no leaks system good to go now. Put water in fresh tank and ran the water pump and it works properly. Tv antenna works properly

Job #E2 - Internal

COMPLAINT: 10K E2 EQUALIZER HITCH

CAUSE: Hitch work
New hitchwork installation

CORRECTION: On putting the hitch brakets on the camper i noticed that the break away box was going to interfere with the hitch brakets so i had to move it first. Then I mounted the hitch brakets to the frame. And put the rest of the hitch in side compartment. Leveled the camper then checked the ball height and matched the truck hitch setup. Connected the truck to the camper. Adjusted as necessary. Connected the 7-way, coupler, breakaway cable and safety chains.
