Op.1 MISCELLANEOUS -MISCELLANEOUS

Labor Sale: \$115.50

Labor Cost: \$21.70

1. First i tested for power at the board and switch outside and there was power there removed the controller off the wall and there was no power to it. Removed the panel to access back of water heater and found when i was grabbing the wires the controller had power on and off removed the blue wires from the connector and found one of them was barely stripped on the end so it wasn't making a connection stripped wire more and it's working as it should again.
