Problem: SLIDE ROOM WILL NOT MOVE

Cause: Slideroom won't come in

Remedy: On inspection of the slideroom. I used the manual crank and slideroom is free in and out not bound up. I am get 13.6 volts at the switch and at the motor but the motor still wont move the slideroom. So then i hook a battery straight to the motor with a inline fuse and had the same results. So i put in a parts request for a new motor.

Part Return Req: No

Status: Approved with Modifications
