Job #1 - Warranty

COMPLAINT: TANKLESS WATER HEATER WON'T LIGHT.

CAUSE: Tankless water heater not working

CORRECTION: So inspection of the water heater. Lp to gas valve is good checked continuity in the air pressure switch is good. Checked it does have 12 volt power going to it. We do have a call in to technical help waiting for a call back. Brandon from tech support called and said he says board seems to be the issue. So I put a parts request in for a new board. So I put everything back like it was. helped chris remove exhaust vent BM
