Hi Alix,

Please note that we consider shop supplies to be in a “category” such as nails, screws, glue, caulk etc. If you have a specific part, such as trim, this would not be considered as shop supplies.

They are limited to a max of \$25/claim.

On a case by case basis, we may approve more than this amount as deemed necessary, such as in the event of a major repair like a complete roof replacement. This is at the discretion of our GDRV management.

I hope this helps.

Thank you, 😊
