Job #01 - Warranty

COMPLAINT: WARRANTY ITEM

CAUSE: 1004 ISSUE CAUSED BY AC control board has 12 V and ground in and no 12 V out to the thermostat

CORRECTION: I pulled the thermostat from the wall check for voltage no voltage found I pulled the return air grill off the ceiling assembly and tested the connections for the thermostat and there was no power there either. I contacted Lippert and was told that as long as I have 12 V into the controller and nothing out the controller is bad and needs to be replaced.

Will have to order the new controller remove the ceiling assembly and wire all the 12 V connections and 120 V connections rewire the new one plug everything in and test function REQUESTED 1.00

Labor

Job #	Description	Total
01	Thermostat in op	N/C
Subtotal for Job #01:		0.00
