COMPLAINT: REFER LOOSE

CAUSE: NOT SECURED PROPERLY

CORRECTION: Upon PDI, found the refrigerator was loose and noticed the screw was broken. The refrigerator screw had broken the style and it needs to be replaced. Refrigerator will need to be taken out of its location, in order to put a new style in. Will have to take out the furnace, disconnect the gas line along with electrical wires. The fuse box will have to be unscrewed and wires have to be taken off in order to place a new style in. The wood around the style will need to be taken apart in order to add a new style and needs to be screwed back into factory location. The furnace will need to be connected back up, gas lines and its electricity needs to be connected back up. The fuse panel has to be placed back into the factory location wires have to be placed back in and working order. Both the furnace and the fuse box will need to be tested and in working condition. The refer will need to be wired and screwed back in the factory location and tested to be in working order.

The size of the style is 2 x 20 long.
