Job #1 - Warranty

COMPLAINT: SLIDE ROOM WILL NOT MOVE

CAUSE: Slideroom won't come in
Slideroom motor

CORRECTION: On inspection of the slideroom. I used the manual crank and slideroom is free in and out not bound up. I am get 13.6 volts at the switch and at the motor but the motor still wont move the slideroom. So then i hook a battery straight to the motor with a inline fuse and had the same results. So i put in a parts request for a new motor.

Went to unit. Removed bolt holding motor in place. Removed wires from motor. Placed new motor in with override attached to motor. Placed bolt in to secure motor. Wired new motor in and checked to see if motor works. Room runs in and out as it should. Ran electrical tape around motor wires. Taped under belly where access was for motor.

Labor
