WO # Job # Description JOB INFORMATION

79985 1 CUSTOMER ADVISES THAT THE SMALLER AWNING THAT COMES OFF OF THE
SLIDE ROOM ON THE DOOR SIDE GOES OUT SLOWLY AND IT JERKS. IT WILL
GO BACK IN. IT ONLY DOES THIS WITH THE SWITCH AT THE INTERIOR
CONTROL PANEL. CUSTOME CAN RUN IT FROM THE SWITCH IN THE
PASSTHROUGH AND IT FUNCTIONS PROPERLY.
Awning not working on interior switch
Brought unit in. Opened compartment door and ran slideroom awning
in and out. Awning works as should. Went inside and tried to use
awning switch. Awning jerks and spots and repeats process.
Removed switch from panel. The connection on the extend part of
switch has lose connection that has been pulled out. Parts
request submitted for new switch. Recieved new switch. Removed
cover on board. Removed screws holding board in. Pulled old
switch out and replaced with new switch. Tested awning. Awning no
longer jerks in and out when using switch inside. Placed screws
back in board and cover back on

79985 2 CUSTOMER STATES THE LOCK ON THE FRIDGE DOESN'T LATCH
Fridge lock
Brought unit in. Grabbed fridge lock that screws into the top of
fridge. Lined up lock and started to thread into place. Once
started tightened all the way down until doors work locked in
place. Left lock in for customer to see.
