WO # Job # Description JOB INFORMATION

65945 1 CUSTOMER STATES THAT THE WATER PUMP NEVER FULLY PRIMES. IT WOULD
PRIME, SHUT OF, AND THEN COME RIGHT BACK ON. IT NEVER STOPPED
UNTIL CUSTOMER TURNED PUMP OFF.
check pump function.
filled water tank. turned on pump. pump is cycling and not
building pressure. cut open underbelly to see if water was
running out since SHAWN JUST REPLACED THE FRESH TANK. checked all
other fitting and water lines on all fixtures through the entire
unit to see if there were any leaks. no signs of water leaking
anywhere. went back to pump and noticed there isnt a filter on
the pump. pump is probably full of debris and has damaged the
inside of the pump. need to replace pump and install a filter to
prevent further damage. replaced pump and installed filter
