Job #1 - Warranty

COMPLAINT: FUSE BLOWS (CENTER LIGHTS INOP)

CAUSE: The wire supplying power to the lights was tied into the slide switch.

CORRECTION: Removed each light starting from the furthest light from the breaker panel. And removed the light and tested. All the lights were working correctly. Pulled the power converter and checked the wires. All seemed ok. Pulled the switch panel and traced the wires and noticed the wires were tied into the switches for the slide. Moved the wire over to the light switches and it started working.
