**Op.1 MISCELLANEOUS -MISCELLANEOUS**

**Labor Sale: \$165.00**

**Labor Cost: \$38.80**

- found that there's a water drop forming on the right side of water heater on the copper lines thinking a connection where it is soldered together might not be fully soldered took pictures for warranty. Will most likely need a new water heater ordered and installed
- Replaced bad water heater and tested. controller in bathroom was flashing and EC code, so I looked it up and it was a loss of communication to controller. Could not get the towed to go away so I replaced it with the new controller that came with the new water heater and tested again. Everything's working like it should.
