1. Plugged unit in and went to touchpad in hallway. The buttons and LCD screen worked, but the tablet screen was not coming on. Took video and pics. Removed from wall and disconnected for 10-15 seconds, getting pictures of the back side tags and checking connections. Reconnected and tablet came back on. Went through tablet and updated the Google Play app, the Jaycommand Plus app, and made sure the firmware was up to date as well. Took pics of current versions. After updates, did not have any issues of tablet screen not working.
