Complaint: Customer states the control panel keeps shutting down.

Cause: CompFail Plugged unit in and went to touchpad in hallway. The buttons and LCD screen worked, but the tablet screen was not coming on.

Correction: Removed from wall, disconnected for 10-15 seconds, check connections, reconnected and the tablet came back on. Went through and updated the Google Play app, the Jaycommand plus app, and made sure the firmware was up to date as well. Tablet screen is now working.
