WO # Job # Description JOB INFORMATION

66470 1 FOLLOWING ICE AND SNOW THERE WAS A PUDDLE OF WATER NOTICED IN THE
KITCHEN FLOOR
with the water in the location it was i checked the roof and
found that it was leaking at the outer flange under the seam
tape. the roof decking is lumped up from water damage and i
found the outer flange had screws broken in it and the rubber
roof does not even go under the flange so if water gets past
the seam tape it goes directly to the wood decking.
