Notes: 5.22.26 John-You will need to address the root cause of the top hitting the dinette. Remove the face frame to replace the damaged stiles. With that removed, narrow up the dinette bench by cutting it down. Would not require complete bench removal. Will approve 6 hours to replace stiles and narrow bench. An oscillating tool will be very handy in this repair. Changed code to cabinet base stile replace.

Status: Approved with Modifications
