Job #1 - Warranty

COMPLAINT: THE WATER HEATER IS NOT FUNCTIONING ON ELECTRIC OR GAS. CUSTOMER WAS AT CAMPSITE AND WATER HEATER FUNCTIONED PROPERLY FOR 3 DAYS AND THEN IT STOPPED HEATING.

CORRECTION: i checked the thermal cut-cut off on water heater by main lining it and gas and electric and both worked. i replaced the thermal cut-off and everything works fine. i also blew out the gas tube it had a little bit of flam roll out when first fired up. there must had been an obstruction in it. has good solid flam now, no roll out.
