WO # Job # Description JOB INFORMATION

81070 2 FAUCET ON ISLAND DOES NOT RETRACT
DECLINED PARTS FIX THE PART THAT IS THERE
Opened the trash can door then unscrewed the door. Inspected the
water lines. Water lines was in a tangle. Untangled the water
lines and ziptied to give the faucet hose room to move freely.
Faucet hose still won't move easily. Took pictures and put in a
parts request.

81070 8 CUSTOMER STATES WHEN USING BLACK TANK FLUSH THEY FLOODED THE
BATHROOM
Vacuum breaker
Went straight to the vacuum breaker and unscrewed it from the
water lines. Blew air thru the black tank flush connection and
had a tech see which water line air was passing thru. Water line
was correct but the ball in the vacuum breaker had popped out of
its location. Got a new vacuum breaker from the parts department
then installed. Connected a garden hose to the black tank flush
and had a tech verify it wasn't leaking.

81070 4 SWITCH BY BED DOESN'T WORK. MARKED WITH BLUE TAPE
Loose terminal
Flipped the switch but nothing happened. Unscrewed the switch and
found a wire not connected. Connected the wire but wouldn't stay
on. Squeezed the terminal on the wire to close the gap then
connected the wire then flipped the switch and the lights above
the bed came on.
