CORRECTION: pulled camper in to service bay then went inside camper to inspect the bathroom door. took pictures fo door not closing. opened bathroom door and removed the striker plate and plastic door trim. hammered back the stud and trimed the paneling till door shut with ease. restapled the plastic door trim and put striker plate back on and checked for door clearance. door is now easy to shut without force. cleaned up the mess from triming out door. closed camper up moved to lot.
