WO # Job # Description JOB INFORMATION

71824 1 CUSTOMER ADVISES THAT TWO OF THE GFCI PLUGS ARE NOT WORKING.
BATHROOM AND UNDER THE BAR.

Pulled gfi outlet and had no power. I then went the breaker panel and had 120 on all breakers. I pulled out the panel and checked behind it. I found a connection but traced it to the load side of the gfi. I then pulled on the wire t the breaker and found it was at the breaker but wasn't clamped ino thr breaker.
