WO # Job # Description JOB INFORMATION

72628 3 FRONT DECAL IS TORN

72628 1 ENTRY DOOR NEEDS ADJUSTED
Main entry door is difficult to close, the secondary entry door has no problems
Checked both entry doors and the front entry door takes a lot of effort to close. Used some blocks of wood to space out the door and pushed on the center. Now the front entry door shuts the same as the other door.

72628 2 PANTRY DOOR WONT LATCH
Plastic door trim was out of alignment
Took pictures of the pantry door not closing proper. Had to lean body weight in to door to get it to close. Removed the pantry door and plastic door trim. Inspected for a problem, found the outside kitchen wall was stopping the hinge side. The latch side was not set in place right. Went to the outside kitchen, unscrewed the fridge and griddle. Then unscrewed the wall to allow the plastic trim to fit on the hinge side. Had to trim the plastic door trim to fit on the latch side. On the latch side had to drive wedges in place to push the door frame outward. Screwed the outside kitchen wall back together. Screwed down the fridge and griddle. Put the plastic trim on door frame followed with the pantry door. Now pantry door shut with ease.
