WO # Job # Description JOB INFORMATION

72657 1 BATHROOM ENTRY DOOR HARD TO SHUT
Latch is dragging across the stricker plate
Inspected the bathroom entry door. Took a lot of effort to close
the bathroom entry door. Found the latch on the door was dragging
across the stricker plate and the door has a bow. Adjusted the
plate, used pieces of wood to help take out some of the bow. Such
as placing a block of wood at top and bottom of door then pushing
in the middle. Now bathroom entry door closes with ease and is
latching properly.

72657 2 COAT HANGER IN BATHROOM LOOSE
Screw hole is stripped
Took pictures of the coat hanger loose from the wall. Only had to
remove 1 screw from the wall as the other screw was not holding.
Pulled both screws out then move the coat hanger a1/4inch.
Screwed in the coat hanger back into the wall.
