WO # Job # Description JOB INFORMATION

72662 1 BOTH LIVINGROOM SHADES WONT STAY UP
Tension strings were not tight
Inspected both blinds found that the tension strings were not
pulled tight enough to hold up the blinds. Tightened each string
the same, now blinds stay up as should. No damage found.

72662 2 REAR SCREEN DOOR WONT LATCH
Screen door latch didn't hold to strike plate
Inspected the latch of the screen door. Found the latch didn't
reach the stricker plate enough to hold close. Removed the screws
holding in the stricker plate then placed 2 washers behind each
screw to give more hold to the latch. Took pictures of the latch.

72662 3 THE EXTERIOR BATHROOM DOOR WILL NOT LATCH
Try to shut the door and it bounces back, not latching.
Inspected the latch and door. The door had a bow which means that
the door would touch at the top and bottom. Used blocks of wood
at the top and bottom of door then pushed at the door handle till
door shut proper. Door strike plate had to be aligned as well.
