Job #1 - Warranty

COMPLAINT: FIND OUT WHY THE UNIT WOULD NOT AUTO LEVEL

CAUSE: Front and rear level sensors were plugged in backwards

CORRECTION: Plugged in shore power cord. Manually leveled the camper then zero out the calibration. Checked front and rear level sensors. Called LCI tech support, tech support explained on how they wanted the level system to work and tested. Followed thru with there instructions on diagnosis. Unplugged wire harness and plugged in others. Let the system shut off on its own as directed by tech support. Ran leveling system several times after discussion with tech support. Got a case number for this job from tech support. Leveling system would act up after about 3 cycles of Leveling. Have ran leveling system 7 times with no problems.

Labor

Code	Description	Mechanic	Total
Z990	MISCELLANEOUS REPAIR	SAR	0.00
Z990	MISCELLANEOUS REPAIR	SAR	85.00

Subtotal for Job #1: 85.00
