#### Job #1 - Warranty

COMPLAINT: CUSTOMER ADVISES THAT THE FIREPLACE CAME ON FOR ABOUT 30 SECONDS AND THEN IT SHUT OFF. IT CAME BACK ON FOR A SHORT TIME AND THEN SHUT BACK OFF AND HASN'T CAME BACK ON SINCE.

CAUSE: fireplace keeps turning on and off

CORRECTION: checked plug and had no power but when i wiggle breaker light would flicker on my outlet tester, pulled cover on breakers and found wire was touching breaker ,pulled breaker and wire was not in clamp on breaker, screw would not come out, so i had to replace breaker and hook up wire and install breaker in panel, tested fireplace and now it works, installed panel back in place, all good.
