Job #1 - Warranty

COMPLAINT: FURNANCE WILL NOT LIGHT

CAUSE: furnance not kicking on

CORRECTION: turned on thermostat and fan would run but it would not ignite,checked 12 volt and i had power coming into board but no power going to sail switch,replaced board and it works now.also thermostat was working backwards,come to find out it was installed upside down,turned around and it works fine now.installed orginal board back in to check and it works now,thermostat was hung upside down with cover the right way,so everything was backwards so that explains why it would not work.
