WO # Job # Description JOB INFORMATION

76026 1 BOTH ENTRY DOORS NEED ADJUSTED
Found that both of the latch plates for both exterior doors are causing the doors to not close properly also found that the doors were bent and were not flush with the frame when closed
Adjusted the striker plates to be more flush with the frame. Also lightly bent the doors back to being more even along the length of the door to have it shut flush into the frame. The doors now close much easier and evenly without requiring a lot of force to close.
