WO # Job # Description JOB INFORMATION

76205 1 TONGUE JACK WILL GO DOWN BUT NOT UP

Switch on tongue jack is bad.

I removed the cap from the tongue jack and then hooked up a battery powered reversing switch to the motor. I found that the motor of the jack is working as it should. The switch only works in one position. I requested a new switch panel. The switch is glued into the top of the jack. I was given a new jack to install. I installed the new jack and put the old jack on the warranty shelf.
