Job #1 - Warranty

COMPLAINT: THE BAL TONGUE JACK CONTROLLER WILL NOT POWER UP

CAUSE: Jack system is not getting power.

CORRECTION: I checked power at the jack, no power. I checked the power at the control board, no power. I opened the underbelly at the corner of the camper to check the breakers. I found 4 of the studs had loose nuts on them. I tightened all of the nuts on the breakers and now the system is working. I put the underbelly back up and checked the system again. It is working as it should.
