Job #4 - Warranty

COMPLAINT: THE REFRIGERATOR AND THE FREEZER ARE NOT COOLING.

CAUSE: Refrigerator not working

CORRECTION: As I was looking at the refrigerator I noticed, it was not working. I pulled the refrigerator out of the unit to see if it was unplugged or what the steps were to cause the refrigerator not to be working. I noticed that the three wires in the back were not plugged in all the way and secure so I pulled the black & white wire and chased them throughout the camper. To find out that the number 8 AMP was not hooked into anything, so I ran a new ground wire. To the number 8 to make sure that it would have a wire going to it once.I ran the new ground wire.And also new wire to the board the refrigerator turned on
