76930 1 CUSTOMER ADVISES THAT THE REFRIGERATOR WILL ONLY RUN ON SHORE  
POWER. IT WILL SHUT OFF AS SOON AS SHORE IS DETACHED.  
Pulled unit into shop. Plugged into shore power. Checked the  
fuse for fridge. Verified that the fridge is working on shore  
power. Turned off battery disconnect and unplugged shore power.  
There is no 12 volt going through the unit. Located battery  
disconnect box. Removed cover. Checked for any obstructions.  
Checked all fuses and connections. Installed cover and checked  
the switch. Went inside, and the 12volt system is working.  
The battery disconnect was not making contact when is was in the  
on position. Tested switch several times. Fridge has power when  
unplugged from shore power. Tested fridge for 4hrs without any  
issues. Closed unit and parked.
