WO #      Job #  Description          JOB INFORMATION
*****
77091     3      THE SEATING IN THE SLIDE IS NOT SCREWED DOWN
          Secure Recliners to slideout floor...
          1 small L Bracket was the only thing securing it to slideout
          floor. And these specific set are technically to long for this
          slideout and the front brackets slightly over hangouts the floor.
          Was instructed by Ben to go ahead and secure the rear. Had to
          completely disassemble 3 piece dual Recliners to secure the rear
          brackets on Recliners. Retrieved heavier diameter and correct
          length mount screws. Had to mount the far left seat 1st, middle
          union 2nd and then right seat last, in that order due to the
          interconnecting bracketsbetweenpieces. Cleaned up my tools.

77091     1      SHOWER LEAKS AT THE DOOR SLIDE AND AT THE BACK OF THE SHOWER WHEN
          USING THE SHOWER
          Assess and seal leak at backside of shower door...
          Sealed corner with White Sealant at corner and lowered door seal.

77091     2      A TRIM PEICE IN THE BATHROOM IS LOOSE  AND LOOKS BAD
          Loos3 trim in bathroom...
          Stapled trim back into place and filled the staple marks with
          white puddy.
