WO # Job # Description JOB INFORMATION

77416 2 THE COLD WATER LOW POINT DRAIN VALVE IS BROKEN
Broken low point valve
Saw low point valve had broken. Removed old valve and replaced
with new

77416 6 SCATCH ON BOTTOM LEFT CORNER OF ENTRY DOOR
Scratch on entry door glass
During pdi of the unit I noticed scratches on, the glass of entry
door. Pictures taken and parts request put in. New door arrived
removed screws in old door after taking screw cover off. Removed
screws inside door. Once screws were out slowly worked door loose
from putty. Once putty was loose removed door. Excess putty was
still on unit removed what was possible with putty knife and use
mineral spirits to get rest of putty up. Putty mad a lot of mess
on unit and had to clean up blac, marks all around door of unit.
Removed silicone around top of door. Once all putty and silicone
was removed unboxed door. Added putty to new door and stuck to
unit. Ran a couple screws in unit to make sure it was square.
Once it was checked ran rest of screws in door. Once all screws
were in ran screw cover over both sides of door. Once screw cover
was on added top ring and shoot screws in to secure to door.
Added decal with soapy water to attach to door. Ran bubbles out
and soaked outside of decal as well let sit over night to stich
to door. Cut excess screw cover off. Adjusted steps latch to new
door. Siliconed top ring of door. Door open and shuts well
