Job #PDINTT - Internal

COMPLAINT: PDI - NEW TRAVEL TRAILER

CAUSE: New pdi

CORRECTION: Added battery box and battery to unit. Torqued tires to 110 ft lbs. Brought all tires to 80psi including spare. Checked all clearance and turn lights to be in working order. Inspected roof and found no voids. Checked breaks on all four tires and emergency break to be in working order. Back spray port was broken so a wor order was put in. Took both lp tanks and filled and placed back into spot on front of camper. Awning fabric and lights in good condition. Connected to city water. Dewinterized unit. All interior lights work. CO2 detector and smoke alarm work. Remote for electric fire place works. Tv connection works picture came through on tv. Front ac unit works. Range and oven work along with light and range fan. Outside grill works. Water heater works, living room ac runs well. All spray ports work. Bedroom ac runs well. Microwave working. Serial and model number taken on all appliances. Lp drop test taken. Passed with wsi of 11. Water pump in unit was causing lights to flicker and surging. Replaced water pump with different brand an reconnected everything. Once turned on with new pump ligfts did not flicker and pump does not surge. Water heater works as well with water pump. Adjusted screen door latch with washer becuase it was to far away from latching with screen door. Entry door shuts well. Furance runs well after cooling down camper. 12v system works well all fuses and lights along with control board.

Job #SWAP - Internal

COMPLAINT: SWAP CUSTOMER'S HITCHWORK

CAUSE: Need to swap customers hitchwork from old trailer onto new trailer

CORRECTION: I removed the L-brackets from the trade-in. I installed the brackets on the new trailer. I reset the hitch high and pitch. The truck has auto level control and manual level control. The truck also has hitch unhook height adjustment. The level of the trailer will determine the height of the truck.
