WO # Job # Description JOB INFORMATION

78005 1 FRONT SLIDE ROOM CRACKING LOOKING FOR RECALL OR TSB

Removved trim and tipped out front cap and supported. I supported the fron on the pin box. I cut grooves and removed the fiberglass. I drilled holes and added wood in the 3 tracks and added the 5 inch screws and drilled holes and secured with screws in the side. I cleaned off all old glue an then added wood to the bottom then added sheet metal. I prepped the metal for epoxy and the glue. I cut out the fiberglass and installed to the wall and let set up over night. I cleaned the sealer off the trim and side wall. Then i reinstalled front cap. Reinstalled the trim and decals and resealed.
