WO #	Job #	Description	JOB INFORMATION
78073	2	FURNACE IS NOT TURNING ON	
		The furnace wont turn on. Removed access panel and checked wiring and tye on and off switch on the furnace. Verified 12 volt power. Removed t stat wires and connected them. The furnace kicked on. Swapped t stat wires. Ran furnace for 10 minutes and didn't have any issues. Installed access panel.	

78073	3	THE FAN WILL NOT WORK UNLESS THE AWNING LIGHTS ARE ON	
		I noticed the vent fan in the living room will only turn on with the awning lights. Pulled the controll panel and checked wiring. Removed the shroud for the fan and found a purple set of wires. Tried switching the wires on the awning light switch and the interior light switch, but nothing changed. Went back the the fan and located another set of purple wires that were in the ceiling.	
		I swapped the wires onto the new set of purple wires. This eet goes to the interior lights. The fan is now powered by the interior light switch. Installed shroud and controll panel.
