<b>Line# 2</b>	<b>Operation Code</b>	<b>Operational Description</b>		
	40-106-24-11-001253	Exterior 12 Volt Wiring - Electrical/12 Volt Exterior/Repair/Electrical		
	<b>Complaint, Cause, Correction</b>			
	Original Note : bhoffman@americanrvcenter.com, 2025-11-04 13:24:50 :: THE FAN WILL NOT WORK UNLESS THE AWNING LIGHTS ARE ON I noticed the vent fan in the living room will only turn on with the awning lights. Pulled the controll panel and checked wiring. Removed the shroud for the fan and found a purple set of wires. Tried switching the wires on the awning light switch and the interior light switch, but nothing changed. Went back the the fan and located another set of purple wires that were in the ceiling. I swapped the wires onto the new set of purple wires. This eet goes to the interior lights. The fan is now powered by the interior light switch. Installed shroud and controll panel.			
<b>Model#</b>	<b>Dlr Sub Hrs</b>	1.00	<b>Sub Labor Amt</b>	\$185.00
