WO # Job # Description JOB INFORMATION

79036 1 MARKER LIGHT NOT WORKING
Front running light doesn't work
Took light off made sure there was a good connection it was.
Tested the light after i cut the wires and it doesn't work. So i
put a parts request in for a new one that we didn't have. So i
went and took one off a lot unit and took a picture of the donor
unit vin and marked it with blue tape to replace it when it comes
in. And wired the light up on sold unit and it works properly.
And then i sealed it with clear silicone. Good to go
