 79059 2 TV HAS NO ANTENNA

No signal from antenna Antenna not working.  
 Took antenna off and checked the cable from booster to antenna it was good. So we hooked the cable back up and held antenna in you hand it worked but when i put antenna back on its base it didn't. So i took it back off and wiggled the wire that were coming out of the antenna itself it worked and then it wouldn't. So the wire connection in the antenna itself is were the issue is. I put a parts request in for a new antenna Brought unit in. Antenna was not working on unit. Recieved new antanna. Removed screw holding top in and pulled off mount. Connect cable wires and am fm wire from old antenna and replaced with new one. Place antanna on mount locked in place and put screw in to hold. Went inside and turned on tv to test signal. Pictures and sound come through on antanna. New antenna works.
