Claim Line Details

Labor				
Line# 1	Operation Code	Operational Description		
	40-106-24-11-001253	Exterior 12 Volt Wiring - Electrical/12 Volt Exterior/Repair/Electrical		
	Complaint, Cause, Correction			
	Original Note : bhoffman@americanrvcenter.com, 2026-03-05 15:41:48 :: THE REAR JACKS ARE NOT WORKING No power to rear stabilizer jack On doing my final i tested the stabilizer jacks and the rear jack had no power. So after looking into it it was missing the power wire. So i traced the power wire from the front and across to the side with the controller and it was never hooked up from factory. So i put a heat shrink butt connector on the wire and ran it to the breaker for the controller. I put wire loom on the new wire to protect it. Stabilizer jack works properly now.
