Job # Description JOB INFORMATION Type Bill To

WARR COMPLAINT: WARRANTY REPAIR 2 - CMR STATES "Two of W 1020 GRAND
the sliding windows do not close far
enough to be able to latI which means
they open up while you are driving and
do not stay closed"
CAUSE: Windows not latching
CORRECTION: Bedroom window and rear dinette window
needed a thorough cleaning in window
track, and lubrication. Being new,
this should have not been an issue,
though there was much construction
debris caught in window tracks not
allowing for easy use of windows. Once
we hit the tracks with compressed air
and then pure silicone spray, they
worked flawlessly. Recommend
lubricating all sliding windows annually
as part of routine coach maintenance.
