Alix,

After doing some digging, the tag the dealer provided on PA# 820248 matches the part number claimed on Claim# 513423. Per the BOM, the original PN for this slide would have been PN:640376, the replacement PN is 640652, which is what was claimed.

The dealer provided the tag below on PA# 820248. This unit's offline date is 8/24/2020. The tag's date is 12/4/2021, which is after the offline date. The PN listed on the tag below is also the replacement part number that was claimed on Claim# 513423. It appears this new PA is for the same slide they had already replaced.

Please advise.

Thank you,
