Good afternoon,

We are needing to request a minimum of 6 hours for Labor Line 1.

We will need to remove the panel on that wall, remove the distribution panel to access the wire for replacement. Then open up the under belly to run a new wire from the panel to the USB charge port to eliminate the existing wire that has a dead short causing the fuse to blow. Will need 18' of 12 gauge wire.

Please approve additional time as only 1 hour approved is not enough.

Thanks,
