1      COMPLAINT:  main door inspection. not latching          W    1020    GRAND
        properly.  gd case #00818787
        CAUSE:      Unsure of the history, someone majorly
                   overtightened the door latch and sunk in
                   both sides of the door latch assembly.
                   This door and latch have been adjusted
                   so many times that components are
                   starting to fit loosely. Recommend
                   replacing door and latch as they are
                   both pretty worn out. Will also need
                   black decals for door. (3hrs) for
                   door/latch and decal replacement
