1      COMPLAINT:  main door inspection. not latching   W    1020   GRAND
        properly.  gd case #00818787
        CAUSE:      Unsure of the history, someone majorly
                    overtightened the door latch and sunk in
                    both sides of the door latch assembly.
                    This door and latch have been adjusted
                    so many times that components are
                    starting to fit loosely. Recommend
                    replacing door and latch as they are
                    both pretty worn out. Will also need
                    black decals for door. (3hrs) for
                    door/latch and decal replacement
