Job #	Description	JOB INFORMATION	Type	Bill To
1	COMPLAINT: SHOWER MEISER IS LEAKING STILL CAUSE: Faucet plundger is leaking. Recommend replace faucet side of showermiser. CORRECTION: Inspected plunger on shower faucet diverter. There is alot of wiggle room in the moving parts of this system. The gasket itself did not seal due to clearances in the diverter. Found a rubber grommet in our shop supplies roughly the same size and cut it down to work better as a gasket than the original one. Still leaks a bit but is mich better. Faucet is in need of replacement. REQUEST 1 HOUR OF LABOR		W	1021 FORES
