Job #  Description                JOB INFORMATION                Type Bill To
*****
1      COMPLAINT:  R&R PANCAKE VENT                W      1020    GRAND
      CAUSE:      While inspecting the roof I noticed
                  ripples in the roof membrane around the
                  pancake vent. The manufacturer doesn't
                  use the adhesion promoter that they're
                  supposed to use so I was able to peel
                  the sealant up with my finger and they
                  also did not hit the predrilled hole so
                  the vent cracked and allowed water to
                  get in and damage at least two sheets of
                  decking. The whole roof needs
                  replacement and one of the solar plugs
                  is cracked.
      CORRECTION: I replaced the vent so the damage
                  doesn't get worse. REQ: 1 HOURS OF LABOR

2      COMPLAINT:  R&R ROOF MEMBRANE                W      1020    GRAND
      CORRECTION: REQUEST: 33 HOURS OF LABOR

3      COMPLAINT:  R&R TWO SHEETS OF ROOF DECKING    W      1020    GRAND
      CORRECTION: REQ: 4 HOURS OF LABOR
  
```
