Job #01 - Warranty
 COMPLAINT: SLIDE IS INOP

CAUSE: The plug firthe switch was loose and would not hold the prongs for the switch in place.

CORRECTION: I started by testing fuses and breakers, all tested good. Inpulled the switch to test power at the switch, found the switch was barely making contact with the plug. I removed the plug to try and find a new one, one couldnt be found, so closed the female contacts so they grip the spades on the plug. Reinstalled plug and tested switch function. Slide operates as designed. REQUESTING .50
