Job #4 - Warranty

COMPLAINT: CUSTOMER STATES REFER IS NOISEY WHILE OPERATING (PLEASE CALL TECH SERVICE)

CAUSE: Customer complaint refrigerator making a loud noise

CORRECTION: Found the refrigerator would make a rubbing grinding noise while in operation.

Pulled the refrigerator out of the slot by taking the decor covers off removing 4 screws

Moved the refrigerator out to the main floor removed the rear cover by taking 10 screws out checked the compressor which was running and it was secure not making any noise.

Then the noise started and it was co I got from the freezer compartment

Opened the freezer door and could hear the fan inside running and sounded like it was either flopping against something or rubbing.

Took 4 screws out and removed the rear cover unplugged the fan and found the screws that hold the fan in place were finger tight. Tightened the screws and put the fan back place plugged in electric back and reattached with the 4 screws. The fan came back and was no longer making any noise and could feel the air circulation in the freezer.

Put the rear cover back on

Put the refrigerator back in the slot in cabinet and screwed it back in place

During this time no noise could be heard from the refrigerator
